PROFESSIONAL EXPERIENCE

B&H Photo Video www.bhphotovideo.com Product Manager Learn and Decide Journey	2023 - Present
--	-----------------------

- Spearheaded the learn-and-decide customer journey, optimizing product descriptions, visuals, reviews, specifications, and educational content, resulting in a 14 million customer annual influx.
- Leveraged data insights to enhance customer experience, driving a 10% increase in customer-submitted reviews.
- Owned multiple projects from inception to completion, demonstrating strong ownership and initiative.
- Oversaw all aspects of the customer journey from product discovery to checkout, contributing to \$1.3 billion in annual sales.
- Developed and implemented efficient processes for a newly established product team, streamlining workflows and improving productivity.
- Defined and prioritized product requirements in collaboration with engineering, design, and marketing, driving product strategy and delivering high-quality features.
- Implemented agile methodologies, enhancing team productivity and accelerating time-to-market for new features and updates.
- Cultivated and maintained strong relationships with key stakeholders, including executives, sales teams, and customers, gathering feedback and aligning product vision with business goals.
- Led collaborative think tanks and facilitated ideation sessions, harnessing collective creativity to drive innovation.
- Led a project that cleaned up and streamlined leasing on B&H, centralizing it on the Product Detail Page (PDP), resulting in a 225% increase in application submissions and \$11,128,000 in additional revenue for the company.

- Led cross-functional teams in the development and execution of product strategy and roadmap, overseeing market research, user testing, competitive analysis, and customer feedback initiatives.
- Identified and prioritized new product features and enhancements, defining product requirements and creating user stories and use cases to drive product development.
- Managed the complete product lifecycle, from ideation to launch and post-launch activities, including product development, testing, and coordination of launch activities.
- Collaborated closely with stakeholders, including engineering, design, sales, marketing, and customer success teams, ensuring seamless product delivery and driving product adoption.
- Analyzed product performance, customer feedback, and market trends to identify opportunities for product optimization and growth, implementing data-driven strategies to enhance product offerings.
- Effectively communicate product updates and progress to leadership, internal teams, and external partners, ensuring alignment and transparency throughout the organization

InternetBrands - Demandforce | www.demandforce.com
Product Manager

2020 - 2022

- Defined product roadmaps and prioritized features based on business goals, customer feedback, and market trends.
- Collaborated with cross-functional teams, including engineers, designers, sales, and customer support, to develop and launch new products and features.
- Created detailed product specifications, user stories, and wireframes to guide development and design efforts.
- Conducted user acceptance testing and ensured product quality and usability.
- Analyzed and reported on key product metrics, including user engagement, retention, and revenue growth.
- Provided ongoing product support and training to internal teams and external customers.
- Developed go-to-market strategies and collaborated with marketing and sales teams to drive product adoption and revenue growth.

Invision App | www.invisionapp.com
Product Manager

2018 - 2020

- Spearheaded the development of features for Freehand, ensuring its continuous improvement and market relevance.
- Oversaw the entire product development lifecycle, from conceptualization to launch, working closely with cross-functional teams to deliver a seamless user experience.
- Created actionable plans, work streams, and tactics to guide the product development process and ensure effective execution.
- Collaborated with key business, UX, and engineering stakeholders to gather insights and align product strategy with the company's objectives and user needs.
- Set the product's strategy, defining its direction and making informed trade-offs between features and speed-to-market.
- Developed and executed product roadmaps, fostering close collaboration with cross-functional teams to ensure timely and successful product delivery.
- Established, monitored, and measured success metrics post-launch, continuously evaluating the product's performance and iterating based on user feedback and behavior data.
- Refined products based on data-driven insights, creating new versions and updates that addressed user needs and drove product improvements.
- Actively integrated behavior data and customer feedback into the product development process, using these insights to inform decision-making and strengthen the overall product offering.

- Defined product requirements and created comprehensive product specifications, user stories, and other relevant documentation to guide the development process.
- Managed product backlog, prioritizing features based on customer needs, market trends, and alignment with business goals.
- Ensured that the product met quality standards and regulatory requirements, collaborating closely with the compliance team when necessary.
- Collaborated with sales and marketing teams to develop go-to-market strategies and messaging for new products and features, and support successful product launches and customer adoption.
- Developed product strategy and roadmaps, aligning them with the company vision and goals, and implementing effective processes to guide cross-functional teams.
- Demonstrated a strong understanding of the healthcare industry, leveraging market insights and customer feedback to inform product decisions and identify new opportunities for growth and innovation.

Refinery 29 | www.refinery29.com
IT Systems Engineer

2015 - 2016

- Engineered and optimized mobile device management systems (Okta, Oomnitza, Jamf) for enhanced security and efficiency.
- Managed the scheduling and execution of computer updates and new software deployments, minimizing disruption.
- Delivered premium "white-glove" technical support (software, hardware, network) to internal employees.
- Provided dedicated on-call support for C-Level Executives and Founders of Refinery29.
- Utilized Trello and Jira for project tracking and developed roadmaps for new software rollouts.
